

## 6 easy steps to receive Western Union money via KTB Net Bank.

1. Select menu >> Receive money

2. Select the deposit account that you want the system to transfer to your account.

3. Enter the 10 digit money receipt code (MTCN)

4. Enter the amount that will be received  
Click >> Search

*Note: You must be notified of the MTCN code and amount from the sender before making a transaction.*

*If the amount specified is incorrect The system may suspend the transaction and you must contact the bank.*

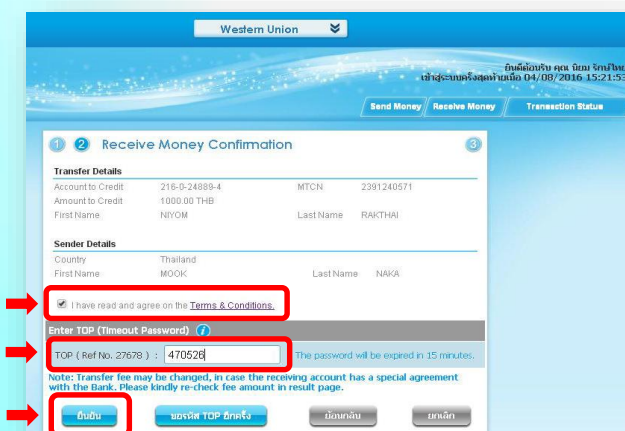

*To make a transaction at a branch or service point*

5. The system will send a TOP code to confirm the transaction.

Enter TOP code

Click  in the box I have read and agree the Terms & Conditions.

Click "Confirm"

6. When the transaction is completed, the "Receive Money Result" screen is displayed.

Customers can view the transfer amount by clicking the "Statement" button.
